Financial and technological considerations make natural gas, wind, and solar natural allies in delivering

reliable and affordable electricity.

### **The Case for Natural Gas and Renewable Energy - SparkLibrary**

Natural gas demand rises to over 600 billion cubic metres (bcm) by 2040, making China the second-largest market globally behind the United States and the largest source of global gas demand growth: the share of gas in China's primary energy mix rises from under 6% to over 12% during this period.
