Statistics Finally Clicks. Wizard is a new way to analyze data on your Mac. No programming, no typing. Just click and explore.

Wizard: Statistics & Data Analysis Software for Mac.

Statistics is a branch of mathematics dealing with data collection, organization, analysis, interpretation and presentation. In applying statistics to, for example, a scientific, industrial, or social problem, it is conventional to begin with a statistical population or a statistical model process to be studied. Populations can be diverse topics such as "all people living in a country" or ...
